
GC 2012-5656: ACCREDITATION OF ENGINEERING EDUCATION IN KOREA

Prof. Wonjong Joo, Seoul National University of Science and Technology

Wonjong Joo is a professor of Seoul National University of Science and Technology (Seoul Tech) and is a vice president of ABEEK (Accreditation Board of Engineering Education in Korea) from 2012. He has been a director of Seoul Tech's Innovation Center for Engineering Education (ICEE) & Hub Center for 5 years and is now a president of Innovation Hub Center Council. His role in ABEEK is to lead the committee of Criteria of Accrediting Engineering Programs. His role in Hub Center Council is to coordinate 60 ICEE universities for sharing the outcomes of the ICEE project. He graduated from Mechanical Engineering Departments of Seoul National University (BS), KAIST (MS), and University of Illinois at Chicago (Ph.D) and his research area includes interferometric measurements, automatic fringe pattern analysis, and vision inspections.

Accreditation of Engineering Education in Korea Prof. Wonjong Kim (ABEEK)

Wonjong Joo is a professor of Seoul National University of Science and Technology (Seoul Tech) and is a vice president of ABEEK (Accreditation Board of Engineering Education in Korea) from 2012. He has been a director of Seoul Tech's Innovation Center for Engineering Education (ICEE) & Hub Center for 5 years and is now a president of Innovation Hub Center Council.

His role in ABEEK is to lead the committee of Criteria of Accrediting Engineering Programs. His role in Hub Center Council is to coordinate 60 ICEE universities for sharing the outcomes of the ICEE project. He graduated from Mechanical Engineering Departments of Seoul National University (BS), KAIST (MS), and University of Illinois at Chicago (Ph.D) and his research area includes interferometric measurements, automatic fringe pattern analysis, and vision inspections.
