

ACI Overview

Mark Suskin
Deputy Division Director
Advanced Cyberinfrastructure
National Science Foundation (NSF)

Computer and Information Science and Engineering (CISE) Directorate

Office of the Assistant Director for CISE
Assistant Director: Dr. Farnam Jahanian
Deputy Assistant Director: Dr. C. Suzanne Iacono

Research Cyberinfrastructure

Foundational Research

Advanced Cyberinfrastructure

Computing and Communications Foundations

Computer and Network Systems

Information and Intelligent Systems

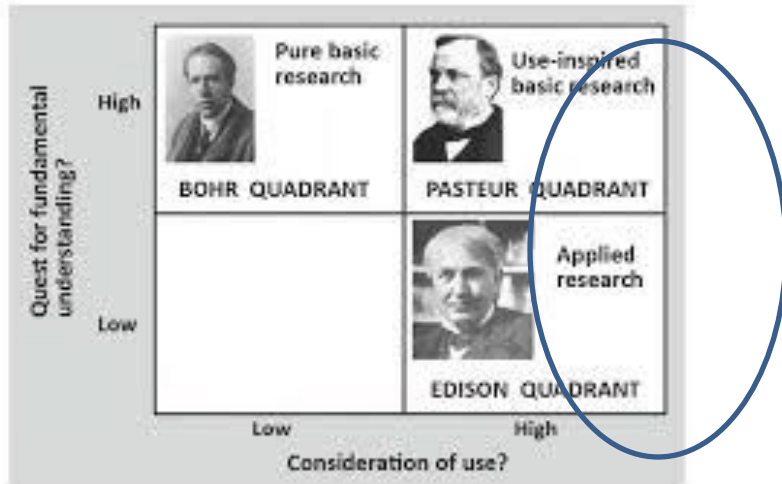

- Networking & Security
- Advanced Computing
- Data
- Software
- Workforce Development

- Algorithmic Foundations
- Communication and Information
- Software and Hardware

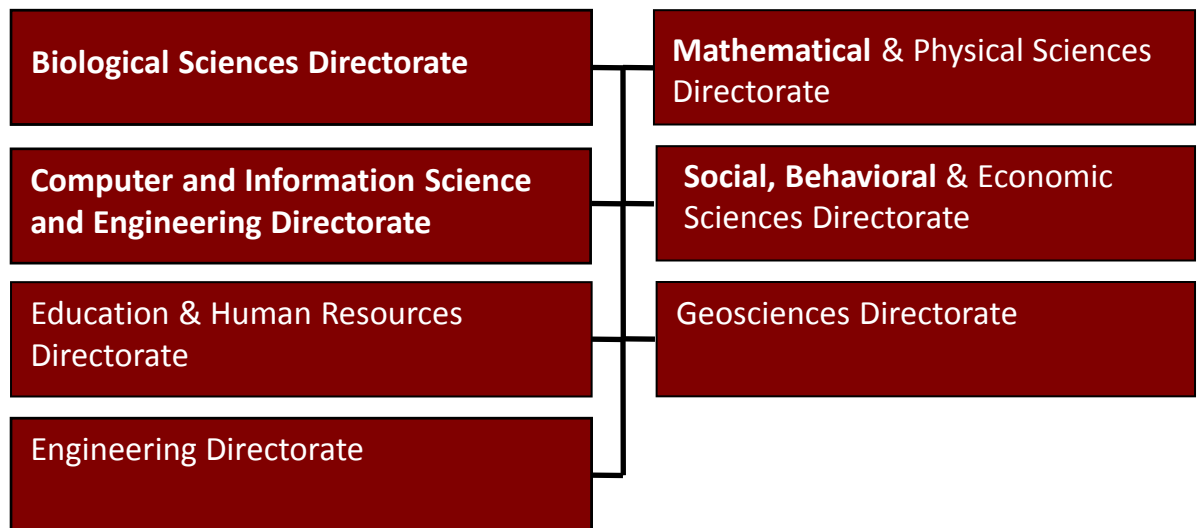

- Computer Systems Research
- Networking Technology and Systems
- Education and Workforce

- Human-Centered Computing
- Information Integration and Informatics
- Robust Intelligence

ACI Mission: To explore, develop and support advanced cyberinfrastructure to enable and accelerate discovery and innovation across all disciplines

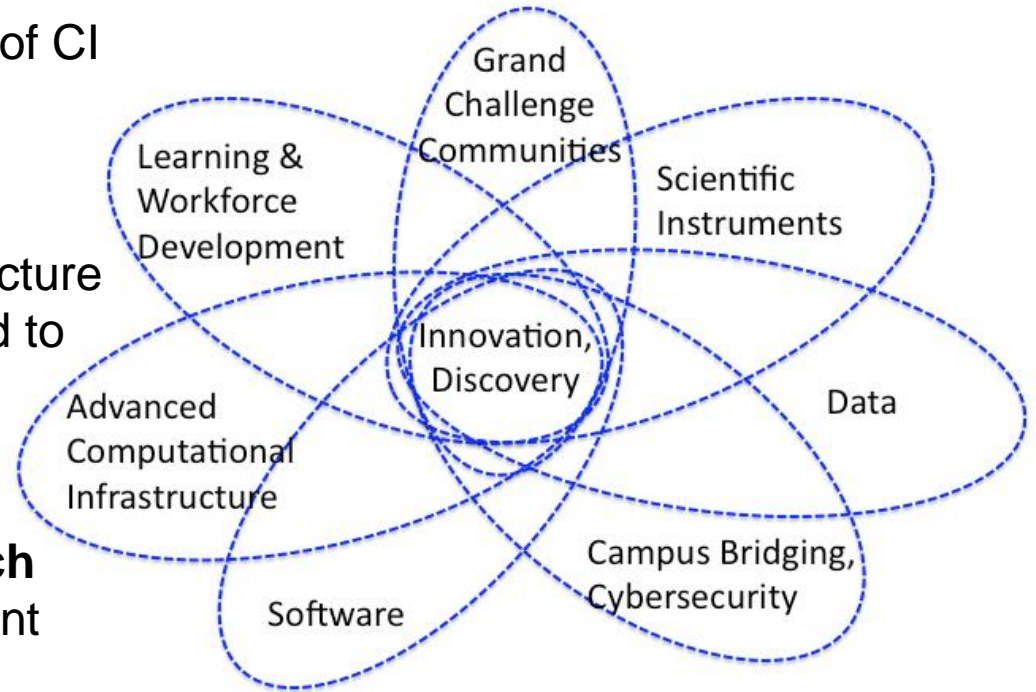

- **Use-inspired Cyberinfrastructure**
 - **Research and Education**
 - **Science and Engineering**
- **Inherently multidisciplinary with strong ties to all disciplines/directorates**

ACI is pivotal to NSF's Vision for Research Cyberinfrastructure (CIF21)

CIF21: cyberinfrastructure as an ecological system

- **Community building** to foster use of CI in scientific discovery
- **Infrastructure collaboration** and coordination
- **Foundational research** in infrastructure components and science related to their use
- **Sustained development** through a diverse, trained workforce
- **Transform the conduct of research** through career path development for computational scientists

Ubiquity in mobile devices, social networks, sensors and instruments have created a complex data-rich environment ripe for new scientific and engineering advances

Supercomputing Center**

FY2013 investment reflects increasingly diverse CI needs

Total ACI FY 2013 funding = \$210,772,572

Core FY2014 Activities

- Data Infrastructure Building Blocks (DIBBs)
 - <http://www.nsf.gov/pubs/2014/nsf14530/nsf14530.htm#toc>
- Campus Cyberinfrastructure - Infrastructure, Innovation and Engineering Program (CC*IE)
 - <http://www.nsf.gov/pubs/2014/nsf14521/nsf14521.htm>
- High Performance Computing System Acquisition: Continuing the Building of a More Inclusive Computing Environment for Science and Engineering
 - http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=503148
- Software Infrastructure for Sustained Innovation (SI**2)
 - http://www.nsf.gov/pubs/2014/nsf14520/nsf14520.htm?WT.mc_id=USNSF_25&WT.mc_ev=click
- Follow on to CIF21 IGERT

Thank you !
